

KEYSTONE ANALYTICS LLC

Data Analytics · Machine Learning · Cloud & Infrastructure

Capability Statement *"Analytics that work where you do."*

CORE COMPETENCIES

- Data analytics, dashboards & business reporting
- Machine learning & predictive modeling
- Revenue, cost & financial analysis
- Cloud deployments & technology/infrastructure management
- Database design, development & management
- Systems integration with existing accounting & business tools
- AI-enabled and fully offline / air-gapped solutions
- Analytics enablement, documentation & team training

DIFFERENTIATORS

- Right-sized delivery, from a single Excel workbook to a full cloud application
- Government and commercial experience; at home in highly regulated environments
- Offline and air-gapped options for when data cannot leave your environment
- Tool-agnostic; we integrate with the systems you already run
- Available as a prime for SMBs or as a subcontractor supporting larger contracts

COMPANY SNAPSHOT

Keystone Analytics LLC is a data analytics and technology consultancy in the Washington, D.C. metro area (National Capital Region), based in Maryland. We deliver analytics, machine learning, and cloud and infrastructure solutions to government and commercial clients, meeting each client in the environment and tools they already use.
